

# samba messages read\_data failure

/var/log/messages에 read\_data failure 메시지가 반복적으로 나오는 경우

메시지 내용

```
$> tail -f /var/log/messages
...
read_data: read failure for 4 bytes to client
...
```

조치방법

```
$> vi /etc/samba/smb.conf
...
[global]
smb ports = 139
...
```
